

Notice of Termination - NOT

A permittee who is presently covered under a Kentucky Pollutant Discharge Elimination System (KPDES) General Permit may submit a Notice of Termination (NOT) form when the facility no longer has a permitted discharge or when the permittee no longer is the operator of the facility.

For construction activities, elimination of all storm water discharges occurs when disturbed soils at the construction site have been finally stabilized and temporary erosion and sediment control measures have been removed or will be removed at an appropriate time, or when all storm water discharges from the construction site that are authorized by a KPDES KYR10 General Permit have otherwise been eliminated.
